

Roshni Dhimar

MERN Stack Developer | Building scalable web experiences with a Creative edge

rosedhimar@gmail.com | [GitHub - Roshni-Dhimar-28](#) | [LinkedIn - Roshni Dhimar](#)

SUMMARY

I build web applications that don't just function, but communicate.

With a strong foundation in the MERN stack and a focus on user-centric design, I enjoy transforming ideas into responsive, real-world solutions that balance logic with creativity.

SKILLS

Languages: Python, JavaScript

Web: HTML, CSS, React, Node

Tools: Git, VS Code, Firebase, MS-Tools

Core : Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Communication

EDUCATION

Bachelor of Computer Applications (BCA)

[Guru Nanak College(Autonomous), Chennai]

CGPA: 8.7 / 10

EXPERIENCE

1. MERN Stack Developer Intern

Codec Technologies | Jun-Jul 2025

- Built and worked on MERN-based applications
- Improved integration and debugging skills

2. Web Developer Intern

Skillforge | Nov 2024-Jan 2025

- Developed responsive UI components
- Applied full-stack concepts in team projects

PROJECTS

1. Score - Student Freelancing Platform

Built a role-based platform for students, recruiters, and alumni

Implemented authentication, bidding, and collaboration features

Tech: React, Node.js, Express, Firebase, Tailwind
